

## Software Developer

570-419-2673 · way.sethaniel@gmail.com · linkedin.com/in/sethway · github.com/seth-way

### CAREER SUMMARY:

Military Veteran with five years of active-duty experience seeking a career in Information Technology. Proven manager entrusted to meet deadlines and solve problems in a demanding, project-oriented environment. Excellent team-first attitude with a passion for collaboration.

### SKILLS:

React · TypeScript · JavaScript (ES6+) · Tailwind CSS · HTML5 · CSS3 · Node.js · Git · Cypress · TDD (Mocha, Chai)

### RELEVANT PROJECTS:

#### 6° of Kevin Bacon — github.com/seth-way/degs-o-kev-bacon

- Invented a new logic-intensive, creative puzzle challenge that provides a unique trivia experience.
- Built & hosted a custom Node/Express server that delivers users each custom-built puzzle using a RESTful API.
- Integrated DnD-Kit drag-and-drop hooks to make gameplay intuitive and reduce any potential learning curve.

#### Dangol'Weather - github.com/seth-way/dangol-weather

- Integrated Google's 'Location' & 'AutoComplete' APIs to handle user location inputs resulting in several hours of dev time saved.
- Navigated the use of several new libraries in a team environment while maintaining strict design principals to achieve a minimal, uniquely branded UI.

#### Tainted Turnips - github.com/seth-way/tainted-turnips

- Deployed multipage app using React Router for increased SEO, page performance, and overall UX.
- Implemented E2E testing with Cypress to ensure app predictability regardless of API responses.
- Utilized complex CSS animations & DOM manipulation to create a seamless & bug-free layout across all screen sizes.

### WORK EXPERIENCE:

#### United States Army | Sergeant / Squad Leader | 2014 - 2019

- Supervised a team of five in completing work orders in a metal fabrication shop. Held authority over quality control and taskings. Maintained welding and precision machining equipment, to include repairs and regular services.
- Mentor & manager to a team of 4-8 members with responsibility for their technical and career development.
- Managed & delivered on approximately 100 project deadlines in a demanding, fast-paced environment that required balancing work schedules with extensive military training demands.

### EDUCATION:

#### The Turing School of Software & Design · 2024

Front End Software Engineering · 9-month Engineering School · Student Leadership Council

#### Microsoft Software & Systems Academy · 2019

Microsoft Software Associate (MTA) - Software Development Fundamentals · 19-week Course

### AWARDS / PARTICIPATION:

Army Commendation Medal (X2) · Army Achievement Medal (X2) · Army Good Conduct Medal · National Defense Service Ribbon · Non-Commissioned Officer Professional Development Ribbon · Overseas Service Ribbon · Parachutist Badge
