-
- | | |
|--------------------------|-------|
| • PassKey Authentication | • AWS |
|--------------------------|-------|
-

PROJECTS

Guardian Angel | Group Project |

- Built a Monolith API application from scratch using Ruby on Rails and tested with RSpec
- Researched and implemented Google OAuth2 for creating and logging in Users
- Successfully worked with 6 other developers to create a Mental Health Help app to give resources to people in need

Little Esty Shop | Independent Project |

- Built an extension on a group project to add toggleable coupons for merchants on an Etsy clone application
- Properly tested including happy paths, sad paths, and edge cases using Rails RSpec

EXPERIENCE

Palmetto State Armory, Columbia, SC

Apr 2019 – Sept 2019

Software Administrator

- Worked with all trades and departments to create a diverse team capable of handling any service request.
- Consistently achieved success with challenging problems through effective teamwork, and communication.
- Worked in Salesforce and picked up other technologies on the job.
